

## **19% Discount During COVID-19**

### **Make Sure You Can Hear During Quarantine**

At The Hearing Clinic, we understand that we provide an essential service, especially during times when all you can do is talk. Budgets are tight during uncertain financial times, and we want to make sure that our patients are still able to communicate with loved ones and hear important updates.

First, we want to re-assure you that we are open and providing services. We have all heard that now is the time to support local businesses, and to make it easier for you to support us, we are offering a 19% discount on new hearing aids for the next two weeks. If you would like to take advantage of this offer, please call us and schedule an appointment. If you are uncomfortable coming to us, we will come to you. Even assisted living facilities that are on more severe lockdown are allowing in medical care providers, and we are doing house calls for our most vulnerable patients.

Thanks for your support during uncertain times, we'll get through this together!
